

### **Automotive Quality Technician**

Martin is a full service engineering and manufacturing company supporting major automotive, aerospace, and defense companies worldwide. Our great assets align with our teams providing creative and innovative solutions. We have a rich history in motorsports, engineering, and manufacturing. We are excited to announce continued expansion of our Vehicle Engineering Services, and are seeking to hire **Automotive Quality Technicians** to join our field service team.

Responsibilities include:

- Light mechanical repair / rework
- Follow work instruction provided
- Use of provided software tools
- Communicate with team and customer

Qualifications:

- Demonstrated experience and working knowledge of automobile quality
- Excellent verbal and written communication skills
- Willing and able to complete all assigned tasks and meet goals as assigned
- Must have a cell phone
- Must be able to travel within the US
- Previous automotive quality experience preferred

Expanded qualifications and experience can lead to additional opportunities.

Martin has a complete benefit package including insurance, paid vacations and holidays.

Please send resume to [employment@haroldmartin.com](mailto:employment@haroldmartin.com).

Thank you.
